BOY SCOUT CAMP IN FULL SWING

LADS TAKING TO NEW LIFE WITH LOTS OF VIM AND VIGOR

CAMP ARNETT THE NAME

Lots of Sport for the Boys; Military Discipline Under Commandant Peery and Staff; K. P. for Disobedience.

Camp Arnett, July 21.—"Hail, Hail, the Gang's All Here"—that's the tune that has been taken for the "official" song at the Boy Scout Camp here, and the 28 lads from Maryville and surrounding towns who have chosen to live the life of real scouts for ten days are falling in with the spirit and putting unlimited "snap" into the schedule from reveille to taps.

Camp Arnett, named after a Maryville scout, is a real military camp. Commandant M. A. Peery, Scout Master Frank Green, and Assistant Scout Masters Paul Miller, Earl Miller, Cliff Hull, Hahn, Watts and McMillen, comprise the officers' staff and occupy the headquarters tent at the center of the camp. From here issue all the orders and communications, and woe be unto the scout who enters the portals without coming to the proper "salute" and "'tenshun."

Grouped around the headquarters are 12 white canvas tents which will accomodate three boys each, and off to the west lie six flat "pup" tents. At the rear of the headquarters is the mess tent, wherein "Cooky" John Gooden presides supreme. Gooden has issued a proclamation that too much assistance is unnecessary, and the scout that hangs around the mess tent without proper authority is liable to find himself on an extended K. P. detail

Along the company "street" a hand ball court has been built and at almost any hour of the day, bunch of scouts can be seen batting the sphere back and forth over the net.

Swimming, baseball, and other sports take up the time of the scouts after the regular hours of drill and scout craft work, and there is very little time for the boys to get the homesickness bug in their systems.

The first "casualty" of the camp was reported yesterday morning when Scout Buster Strong, of aryville, cut the end of his thumb while slicing potatoes. Buster did not seem to mind the injury however, and last reports say he will soon be out of "blighty."

Yesterday, the first Sunday at the camp, passed in a quiet way. At 1:30 p. m. church call was sounded, and the boys heard a talk by Rev. Watts, of Hopkins. At 7:40 p. m. Dr. Karl Malotte of Maryville gave an address on "First Aid."

The camp proved an interesting place for a large number of people from surrounding towns yesterday, and throughout the afternoon, many visitors were entertaind by the boys.

The population of the camp is expected to be materially increased this afternoon when about 20 scouts from Maitland arrive.

Following are the Scouts who are now on the roster of the camp:

Maryville—Yeo, H. Tindall, Colbert, H. Green, Lemonr, T. Godsey, Gile, Burris, Keith, Smith, H. Miller, Herndon, Candell, Childs, J. Curfman, Holt, Cook, Gaugh, Arnett, R. Curfman, Bellows, Garten, Strong, R. Godsey, E. Green, Wade, Baker and I. Miller.

Burlington Junction—Yaple, Bailey, Greenelsh, Spargur, Crane, Graves and Barber.

Hopkins—Woodrige, Wallace, Andrews, Fine, Foster, Bebont, McMillen and Eggers.

Quitman—Wright.

Ravenwood—McKee, Moores, M. Bishop, Leary, Goodson, Crawford, C. Bishop and Joy.

CONCLUDE A SECRET PACT.

Mrs. Frank Goodson spent Sunday in Ravenwood with relatives.

JEFFERSON TOWNSHIP ADOPTS JOB ROAD LAW

Everybody Must Drag the Roads and Keep Them Free of Weeds or Hire the Work Done.

Jefferson Township, this county, has adopted the law which provides that everyone must drag the roads and keep them free of weeds, or must pay for having it done by the road overseer. Petitions are also circulating in the same township to have all other road work done by contract, which is undoubtedly also a good move. For just at the time when the roads should be worked, the farmers are too busy, whilst a contractor would have not other work to do. The contract would specify the kind of work that had to be done on each road in the township, and the contractor would be paid a stipulated amount, which would, however, not be paid till the work was properly done. The state's laws render a township entirely safe against any breach of such a road contract, on the part of the contractor. To adopt the contract system it will be necessary for the majority of the freeholders in a road district to sign a petition to the township board, but freeholders in an incorporated town or village can not sign such a petition. After the petition is received by the township board, the board has 30 days time, after which it must order the adoption of said contract system and spread it on the township record and also publish it by handbills or otherwise, and from thereon, or at least from April 15th, next following the adoption, the road tax in such district will have to be paid in money. At the same time the township board must give notice of the letting of the working of the roads in the district by contract to the lowest and best bidder with specifications in such notice of the work to be done. The successful bidder will be placed under a heavy bond. A detailed account will have to be rendered to the public by the township clerk of all the work done and the money paid for it. Those that started the movement consider that the old way of working the roads did do no good for the last fifty years, and therefore think it well worth at least to make a trial with something else, as nothing can be lost by the trial, but a great deal gained. They are surely right.

NODAWAY "WATER WAGON" IS READY

PLANS RAPIDLY PROGRESSING FOR BIG "SOCIABILITY RUN"

OTHER TOWNS INVITED

Cars From Other Communities Welcome to Join in Run; To Make up Route and Itinery Tonight.

The big Nodaway county "water wagon" which is to carry the thirst dispensing liquid on the "sociability tour" of the Commercial Club next Wednesday and Thursday through the various towns of the county, has been placed in condition for its coming task, and with a good hot sun beating down, the indications are that the "thirst wagon" will get a good work out.

It has been planned to have a bulletin board placed at the southwest corner of the square in this city today, on which will be posted the hour when the parade is to start and the order of assembly. All the cars are to be numbered, both in the front and the rear, and the positions according to the numbers must be maintained throughout the trip.

Considerable favorable interest is being displayed in the stunt and cars from other towns are invited to join with Maryville in the run. The sponsors of the plan here feel that representatives of various other towns in the procession will add greatly to the "get acquainted" idea which is the real basis of the tour.

At the regular meeting of the Commercial Club tonight, future plans and the details of the trip will be taken up. It is desired to make the trip a live, enthusiastic one, worthy of the cause, and everyone who can furnish a car, or they have not been already interviewed, is requested to report to the Commercial Club office not later than Tuesday afternoon.

The schedule of route and the itinery of the towns to be visited on the tour will be made at the meeting tonight, and the announcement will be published in tomorrow's papers.

K. C. ENGINEER IS WORKING AT THE WATER PLANT NOW

Mayor Garrett and E. E. Harper, Engineer, Are Going Over Details for Remodeling of Plant.

E. E. Harper, engineer of Kansas City, who drew the new plans for the improvements on the city water plant, is in Maryville today inspecting the old plant and surveying the sites for the establishment of the contemplated improvements.

Mr. Harper will spend a week here going over in detail the entire plant and the plans for the expected changes to be made. Mayor W. O. Garrett has been engaged almost every day at the water works fixing up the old machinery and worn out materials a little so that they can supply the city with water until the necessary improvements [illegible]nges for which the people of Maryville have voted $50,000 can be made.

Mayor Garrett and a force of men are working today, driving piling into the side of the dam where it has a tendency to give way. Everything that can possibly be done to keep an adequate and clean supply of water flowing through the mains is being done. The mayor almost lives at the water works and is doing the best he can under the trying conditions.

REV. COX TELLS OF CLEMENCEAU'S LIFE

LOCAL PASTOR GIVES SUMMARY OF ACTIVITIES OF FRENCHMAN

A FIGHTER FOR JUSTICE

Wrongs Suffered by French Leader Given as Cause for Bitterness Toward Autocracy and Militarism.

Dr. Gilbert S. Cox, pastor of the First M. E. church spoke last night to a large audience on a subject which has special importance at this time, "Clemenceau, The Patriot."

Dr. Cox gave a summary of the life of the great Frenchman, in which he brought out the events which have made him a great fighter for the cause of democracy and right. "When Clemenceau was a boy," said Dr. Cox, "he had ample opporunity to see the terrors of militarism and autocracy. His father was seized at the command of Napolean III, and was imprisoned during the French revolution and all about him he saw the terrible massacre and bloodshed brought about by the ruthless fighting and disorder. When he came to young manhood and entered college, he was expelled for his revolutionary ideas and came to the United States where he taught French in a New York school for four years. He then returned to his native land and in time was elected to the Council. There he saw the invasion of the German hosts in 1874 and was one of the members of the council who voted against the cruel peace treaty whereby France was forced to give up Alsace-Lorraine to the Germans." "All these things," Dr. Cox, had their effect in embittering Clemenceau against the inhumanity and injustice of the power of might and while still a young man he determined to devote his life to avenge his personal wrongs and wrongs to his country."

Dr. Cox then told of the summer in which Clemenceau retired to a quiet life as a country physician after the turmoil in his country, and how he still continued to spread the propaganda of right and a square deal for all, through a small newspaper which he edited and called "Justice." The paper became an important orgain in French polities and although it had many supporters, there were also many who fought bitterly against it. In the church and in all other public activities, Dr. Clemenceau was always a fighter for justice, and one of his favorite sentences was "As long as I can write and talk, if I am in the right I am unconquerable." While in the Council, Dr. Clemenceau was faced with the problem of settling a great labor trouble in Paris. He was advised to send government troops to quell the trouble, but refused to do so, and settled the disputes by a personal talk to the strikers His act saved blood shed and gained for him the support and help of the working men in France.

Just prior to the opening of hostilities in the great war, Dr. Clemenceau appeared before the Council and warned

"Uncle" Star Carmichael, Nodaway Pioneer, An Out of Door Man at 82

The subject of this sketch, Starling Carmichael, was born 82 years ago today in that State famed in song and story as being the State of uncertain politics, the home of the hoop pole, whose citizens are commonly known as "Hoosiers," and near the historic Wabash and grew to young manhood in that State. His youth was just preceding the great Civil war and the young boys of all the hoop pole country were practicing the military art, and young Starling was no exception. With pole or broom, he would charge anything in sight. One day in the absence of his mother

"He charged upon a flock of geese;
He routed them and scouted them
And put them all to flight,

His early life was that of the ordinary Hoosier boy, whose recreation was hunting and fishing and, in the pursuit of these pastimes, he developed qualities as a fisherman unsurpassed by any in all the hoop pole country and as he emerged from the callow days of youth into young manhood, he sustained a reputation for skillful fishing second to none.

By the time he had arrived at 21 years of age, he had caught all of the fish in the Wabash river and, like Alexander of old, sighed for more worlds to conquer, and at about this time the fame of the recently settled Northwest Missouri having been borne to his ears, he moved to Nodaway County and settled near the banks of the classic 102 River, and earnestly began the long campaign against the fish contained in this famous stream and conducted the same so successfully as that today, with respect to containing fish, and it is in the same condition that Uncle Starling left the Wabash in sixty years ago. In this campaign of destruction against the fish in the 102 River, he pursued a plan peculiar to himself, that is, he seldom caught a fish of large size, but exerted his utmost efforts to catching the very smallest fish in the stream, but in great numbers; yet, to hear him in a discussion of his fishing exploits, one would conclude that his whole attention was directed towards the big fellows. But the writer of this having been with him on many occasions on fishing excursions, and being familiar with his efforts in that line, assures the readers that, perhaps, Uncle Starling has

K. C. ENGINEER IS WORKING AT THE WATER PLANT NOW

Mayor Garrett and E. E. Harper, Engineer, Are Going Over Details for Remodeling of Plant.

E. E. Harper, engineer of Kansas City, who drew the new plans for the improvements on the city water plant, is in Maryville today inspecting the old plant and surveying the sites for the establishment of the contemplated improvements.

Mr. Harper will spend a week here going over in detail the entire plant and the plans for the expected changes to be made. Mayor W. O. Garrett has been engaged almost every day at the water works fixing up the old machinery and worn out materials a little so that they can supply the city with water until the necessary improvements and changes for which the people of Maryville have voted $50,000 can be made.

Mayor Garrett and a force of men are working today, driving piling into the side of the dam where it has a tendency to give way. Everything that can possibly be done to keep an adequate and clean supply of water flowing through the mains is being done. The mayor almost lives at the water works and is doing the best he can under the trying conditions.

REV. COX TELLS OF CLEMENCEAU'S LIFE

LOCAL PASTOR GIVES SUMMARY OF ACTIVITIES OF FRENCHMAN

A FIGHTER FOR JUSTICE

Wrongs Suffered by French Leader Given as Cause for Bitterness Toward Autocracy and Militarism.

Dr. Gilbert S. Cox, pastor of the First M. E. church spoke last night to a large audience on a subject which has special importance at this time, "Clemenceau, The Patriot."

Dr. Cox gave a summary of the life of the great Frenchman, in which he brought out the events which have made him a great fighter for the cause of democracy and right. "When Clemenceau was a boy," said Dr. Cox, "he had ample opporunity to see the terrors of militarism and autocracy. His father was seized at the command of Napolean III, and was imprisoned during the French revolution, and all about him he saw the terrible massacre and bloodshed brought about by the ruthless fighting and disorder. When he came to young manhood and entered college, he was expelled for his revolutionary ideas and came to the United States where he taught French in a New York school for four years. He then returned to his native land and in time was elected to the Council. There he saw the invasion of the German hosts in 1874 and was one of the members of the council who voted against the cruel peace treaty whereby France was forced to give up Alsace-Lorraine to the Germans." "All these things," Dr. Cox, had their effect in embittering Clemenceau against the inhumanity and injustice of the power of might and while still a young man he determined to devote his life to avenge his personal wrongs and wrongs to his country."

Dr. Cox then told of the summer in which Clemenceau retired to a quiet life as a country physician after the turmoil in his country, and how he still continued to spread the propaganda of right and a square deal for all, through a small newspaper which he edited and called "Justice." The paper became an important orgain in French politics and although it had many supporters, there were also many who fought bitterly against it. In the church and in all other public activities, Dr. Clemenceau was always a fighter for justice, and one of his favorite sentences was "As long as I can write and talk, if I am in the right I am unconquerable." While in the Council, Dr. Clemenceau was faced with the problem of settling a great labor trouble in Paris. He was advised to send government troops to quell the trouble, but refused to do so, and settled the disputes by a personal talk to the strikers His act saved blood shed and gained for him the support and help of the working men in France.

Just prior to the opening of hostilities in the great war, Dr. Clemenceau appeared before the Council and warned

them of the action that Germany contemplated. He was greeted with derision and jeers but true to his work the Huns began their advance within a month after he had delivered his talk. Dr. Cox stated last night that although Clemenceau was not an actual fighter in the war, his reasoning and guidance was one of the big factors in the allied victory. In France today he is given credit for discovering Marshall Foch, and placing him in the position where his military genius might be used to advantage.

At the close of his address, Dr. Cox showed how Clemenceau had realized all the aims of life. With the establishment of the republican form of government in France, seizure and imprisonment of citizens who wish to speak the truth is no longer permitted, he said and it is no longer necessary to go to another country to get justice, while the winning of the war from Germany has brought back Alsace-Lorraine, and avenged both Clemenceau and France for the wrongs done by the Germans."

If you can't work well in hot weather take Prickly Ash Bitters, it purifies the stomach, liver and bowels and fortifies the body to resist the depressing influence of summer heat. It is fine for working men. Price $1.25 per bottle.—Maryville Drugs Co., Special Agents.—Adv.

COMETS SHUTOUT AGENCY 5-0

Cap Black's Maryville Comets successfully threw the "jinx" that has been chasing them the last few games yesterday afternoon, and with every man on the club playing big league ball shut out the Agency Rollers to the tune of 5 to 0.

From the first crack of the bat to the final stanza it was Maryville's game and the five counters were earned by heady baseball of the highest caliber. Black on the mound for the locals held the opponents to only three scattered hits, and was backed up by air tight fielding. Reynolds, a deaf and dumb lad was on the hill for Agency, and although he pitched a good game, bobbles at critical moments meant runs for the Comets.

The only mar to the otherwise enjoyable event was the injury to Dennis Collins, second baseman for the Comets. In the second inning while sliding to second, he caught his foot in the base peg and a doctor's examination showed the ankle to be fractured.

H. Buhler went over to second after the accident and Phillips of Barnard, covered first. Tobin caught for Maryville.

REV. COX TELLS OF

(Continued from page 1)

them of the action that Germany contemplated. He was greeted with derision and jeers but true to his work the Huns began their advance within a month after he had delivered his talk. Dr. Cox stated last night that although Clemenceau was not an actual fighter in the war, his reasoning and guidance was one of the big factors in the allied victory. In France today he is given credit for discovering Marshall Foch, and placing him in the position where his military genius might be used to advantage.

At the close of his address, Dr. Cox showed how Clemenceau had realized all the aims of life. With the establishment of the republican form of government in France, seizure and imprisonment of citizens who wish to speak the truth is no longer permitted, he said and it is no longer necessary to go to another country to get justice, while the winning of the war from Germany has brought back Alsace-Lorraine, and avenged both Clemenceau and France for the wrongs done by the Germans."

COMETS SHUTOUT AGENCY 5-0

Cap Black's Maryville Comets successfully threw the "jinx" that has been chasing them the last few games yesterday afternoon, and with every man on the club playing big league ball shut out the Agency Rollers to the tune of 5 to 0.

From the first crack of the bat to the final stanza it was Maryville's game and the five counters were earned by heady baseball of the highest caliber. Black on the mound for the locals held the opponents to only three scattered hits, and was backed up by air tight fielding. Reynolds, a deaf and dumb lad was on the hill for Agency, and although he pitched a good game, bobbles at critical moments meant runs for the Comets.

The only mar to the otherwise enjoyable event was the injury to Dennis Collins, second baseman for the Comets. In the second inning while sliding to second, he caught his foot in the base peg and a doctor's examination showed the ankle to be fractured.

H. Buhler went over to second after the accident and Phillips of Barnard, covered first. Tobin caught for Maryville.

THERE IS ONE CAR FOR EVERY OTHER FAMILY IN MARYVILLE

Records at City Hall Show That Already This Year 414 Licenses for Motor Cars Have Been Issued.

One hears it repeated often by traveling men and other visitors to Maryville: "This town sure has the greatest number of cars for a town its size of any that I was ever in." That these statements are not at variance with the facts is evidenced by the records in the city hall. To date 414 motor car licenses have been issued by the city clerk to owners of "horseless vehicles" in the city of Maryville.

Think of it one motor car for every ten or twelve men, women and children in this town or one car for every other family. We wonder how many other towns in this state or elsewhere have such a record.

The total for last year was 388 and for the preceeding year 350 such licenses. These figures not only speak of the large number of motor cars in Maryville but show that the number steadily increases with the passage of time.

Only the immediate members of the family were present to witness the ceremony. Rev. Arthur S. Olsen, pastor of the M. E. Church of Barnard officiated. The bridegroom is a young man of sterling worth, and of exemplary habits. The bride is a young lady of refinement, and pleasing personality. THERE IS ONE CAR FOR EVERY OTHER FAMILY IN MARYVILLE

Records at City Hall Show That Already This Year 414 Licenses for Motor Cars Have Been Issued.

One hears it repeated often by traveling men and other visitors to Maryville: "This town sure has the greatest number of cars for a town its size of any that I was ever in." That these statements are not at variance with the facts is evidenced by the records in the city hall. To date 414 motor car licenses have been issued by the city clerk to owners of "horseless vehicles" in the city of Maryville.

Think of it one motor car for every ten or twelve men, women and children in this town or one car for every other family. We wonder how many other towns in this state or elsewhere have such a record.

The total for last year was 388 and for the preceeding year 350 such licenses. These figures not only speak of the large number of motor cars in Maryville but show that the number steadily increases with the passage of time.

IN FIFTEEN DAYS GAINS FIFTEEN POUNDS

Thompson Was So Rundown He Couldn't Walk Without Help—Tanlac Builds Him Up.

"I commenced taking Tanlac just fifteen days ago, and have gained exactly fifteen pounds so far, which gives me an actual gain of oen pound a day," said Peter Thompson, who for the past six years has been connected with the Kansas City park board, and lives at 409 Chestnut street, Kansas City, Mo., a few days ago.

"When I begun taking Tanlac," he continued, "I was so weak and run down that I couldn't walk a step unless I had somebody to lean on, but I can get out and cover a good many blocks now, and am getting ready to go back to work. Sometime ago I had a bad spell of typhoid penumonia, and it came very near finishing me up. I pulled through, howere, but I had never been able to regain any strength, and my appetite was so poor that I couldn't eat enough to keep me alive hardly. My hea dached all the time, adn I would often have dizzy spells. I also suffered from nervousness and never got a good night's sleep. My stomach was in mighty bad condition, too, and everything I ate diragreed with me and I would ahve the worst sort of attacks of idnigestion. I was certainly in bad shape, and I had began to think that I would never find a medicine that would get me started up hill again.

"I had been reading the different statements about Tanlac, and one day I saw where a lady I knew very well, ha dbeen greatly helped by taking this Tanlac, so I made up my m ind right then and there to give it a trial myself. I commenced to get better right away, and it is just simply remarkable the way I have gained in weight and strength. Why, I can go anywhere I want to, now, and I can just feel myself getting stronger every day. My appetite has come back, and I eat three hearty meal severy day, and what I eat agrees with me all right. I never have indigestion or any kind of stomach trouble any more, and my nerves are so steady that I sleep like a log every night. The headaches haveleft me, too, and so have those dizzy spells, and in fact, I just feel fine all the time. Tanlac has just simply fixed me up all right, and that is why I talk so much about it, and am always recommending it to other people."

"Tanlac is sold in Maryville by Koch Pharmacy, in Conception Junction by A. M. Colly, in Pickering by H. M. Lincoln, in Burlington Junction by Carter Pharmacy, in Barnard by Bear Drug Co., in Elmo by King Drug Co., in Clearmont by Dr. W. H. Wiley, in Ravenwood by C. A. Shunk, in Arkoe by Rufus R. UNCLE STAR CARMICHAEL

(Continued from page 1)

caught a greater number of fish than any other person in this community; he has, also, caught the smallest fish that could be found in the clear waters of the 102 river.

In conversation with him a few days ago, the writer evoked the inner feeling of Uncle Star when he said: "There are a few fellows who are envious of my fishing record If a fellow starts out on the straight and narrow path, there is always someone ready to butt him off. Why, Judge Dawson and I were down to the dam the other day and a funny looking fish made its way up out of the water, and for a moment I did not know whether my name was Star Carmichael or Star somebody else. It had a mouth like a cat fish, with sandy whiskers about the chin, or whatever you call it, four legs like a baby alligator and a tail like an iarship propeller. Sure, it was a funny fish."

When we suggested that it was so funny that people might not believe it, he got worked up a bit and said, "I saw it with my own eyes." Uncle Star said this all happened after wartime prohibition went into effect, and as he belongs to the same church we do and voted for Wilson, we decided to publish the story and if any one wants to suggest a few reservations, they will have to bring in the copy two hours before press time to insure publication.

While Uncle Star has some reputations as a fisherman, he is also known far and wide as a great hunter. He has chased wolves and foxes all over this country, having at one time a pack of hounds that were world beaters. His famous dog "Windsplitter" was always a mystery to those who hunted with him. He was never known to run down or be put out of the race, and when questioned about the mystery of this famous dog Uncle Star said he became great through accident.

One day he was chasing a wolf by sight and was going so fast he struck a rock and just split himself wide open. "I thought so much of that dog, said Uncle, with a tear in his eye, "I ran to him and gathered up both halves and slapped them together and bound them up. When that dog got well, to my surprise, I had put him together one half up side down, and for this reason he could not be run out of the race. He could run on one side until he got tired and then he would just flop over on the other side and finish the race. You are not writing that down, are you?" Uncle Star asked inquisitively. "Yes," we said, "the public might get interested in that dog." "Well, he was no one-cylinder chap, like Heifner, Brown and Robinson owns, but was a two-cylinder dog. When he missed on one side he would 'hit it up' on the other. He was so much of a two-cylinder pup that I named one side 'Windsplitter' 'tother side 'Whipplebat,' but when the tax collector came along, I just gave in one dog, but most fellows who were in the chase thought I had two."

"I've been voting Democratic all my life," he continued, "but like the fellow who stole the sheep, I never meant a bit of harm by it. Guess the good Lord will not hold me to account for that." Uncle Star hesitated a minute and said in a low tone of voice, "I stole a fellow's hound once, but that has been so long ago the statute of limitation has run and I guess Charley McCaffrey and Judge Dawson wont call the grand jury's attention to it. It was conventional in those days and everybody was doing it. You know this wolf hunting and fox chasing is a sport that makes me young again. I was out on a wolf chase recently and it was so exciting I ate up all the grub the neighbors brought in, so they say, and Sheriff Dowden had the audacity to suggest that I pay for my eats, but in 'Indiany' where I came from our motto was 'No bills allowed while the chase was on,' and if the sheriff interfered, he didn't carry a precinct at the next election. Sheriff Dowden ought to be very cautious in presenting bills like that." Uncle Star has a habit of giving his grandchildren and great grandchildren one dollar at birth and one dollar a year at each succeeding birthday. The other day one of his grandchildren ran a double header in on him and gave birth to twins. Uncle Star was up to town early next morning trying to borrow a dollar from some of his friends, until he could collect in a little rent or interest, saying "if that kind of procedure didn't stop he'd have to go some where and ge him a job to keep up expenses."

About this time Ed Williams came along and told Uncle Star he was preparing to try a lawsuit and in which he needed some character witnesses, and suggested to Uncle Star if he would come through like he did on former occasions he would buy a 'Coke,' so they hit the pike for Orear's drug store.

All those who know Starling Carmichael rejoice that, at the age of 82 years, he is enjoying vigorous health. He has spent the last 60 years in Nodaway county, and has lived a life in our midst that merits the esteem and confidence of all our citizens, and today there is no man in all the broad doman of this county that enjoys a greater measure of confidence and affection of all those who know him than Uncle Starling Carmichael, and they cherish the hope that he may have many returns of this day.

Mr. and Mrs. Otha McDowell, Mr. and Mrs. Robert McGinness and daughters, Beverly and Lois Margaret, Mr. and Mrs. Dewey Mounts and son, Forest LeRoy, spent Sunday evening with Mr. and Mrs. J. T. Mounts and family, southeast of town.

Miss Hilda Denny left Saturday for a two week's visit with relatives in Chicago.

Nobody can get rich with labor---with the sweat of his own brow
—or with money invested at 6 per cent or at 7 per cent interest.

BIG PROFITS ARE OBTAINED BY PUTTING TOGETHER INFLUENCE AND MONEY FROM A GREAT NUMBER OF PERSONS

The automobile industry, commercially speaking, is only about twelve years old. It is now said to be the third largest industry in the world.

Authorities claim that the automobile saturation point will be reached ONLY when eveyrbody owns an automobile and no automobile ever wears out.

$500.00 NVESTED IN THE FOLLOWING COMPANIES WOULD HAVE PROFITED FOR THE INVESTOR THE FOLLOWING AMOUNTS:

In CHANDLER	$11,500	In HUPP	$45,000
In STUTZ	$22,500	In FORD OF CANADA	$100,000
In REO	$30,000	In OVERLAND	$125,000

Space forbids the almost unbelievable and marvelous story of fabulous dividends, profits and earnings of others.

We consider PAN MOTOR STOCK a safe investment and one that holds out much promise for unusual profits and increase in value.

Certain interests and their benchmen have become frantic because of the wonderful signs of our great success, and they are manufacturing and scattering broad-cast untrue and malicious propaganda about the PAN MOTOR COMPANY, its Officers and Directors, for the purpose of trying to descredit them and for the purpose of trying to check the Company's progress. They do not spend so much time and money unless they have a sinister and ulterior and evil purpose behind it. Our enemies cannot win—but the PAN MOTOR COMPANY can and will. Bet your money on the PAN MOTOR COMPANY!

The PAN MOTOR COMPANY is here to stay. It HAS OVER 3 MILLION DOLLARS already invested in its Plant. It is in most excellent financial condition. There are 44 good, sound State and National Banks in Stearns County, Minnesota (our Home County), and the PAN MOTOR COMPANY has more REAL money already invested in its most modern plant than the total combined CAPITAL, SURPLUS and UNDIVIDED PROFITS of all the 44, good sound State and National Banks in Stearns County amount to.

We expect to soon be in quantity production on our 1919 PAN CAR—and we plan on being in production on the best all-around farm tractor by September—and we figure that we can make some deliveries of our light truck by December.

Remember, our stockholders will save the local dealer's commission or middleman's profit of 15 per cent on any automobile, truck or tractor sold to them by the PAN MOTOR COMPANY.

THE PAN MOTOR COMPANY now have bona fide orders for over Twenty Million Dollars worth of its products.

REMEMBER—That a farmer never wastes any ammunition on a dead coyote, "a dead one can do no harm." If the Pan Motor Company was a dead one, its enemies would not be spending so much time and money trying to put the PAN out of business.

IN FIFTEEN DAYS GAINS FIFTEEN POUNDS

Thompson Was So Rundown He Couldn't Walk Without Help—Tanlac Builds Him Up.

"I commenced taking Tanlac just fifteen days ago, and have gained exactly fifteen pounds so far, which gives me an actual gain of oen pound a day," said Peter Thompson, who for the past six years has been connected with the Kansas City park board, and lives at 409 Chestnut street, Kansas City, Mo., a few days ago.

"When I begun taking Tanlac," he continued, "I was so weak and run down that I couldn't walk a step unless I had somebody to lean on, but I can get out and cover a good many blocks now, and am getting ready to go back to work. Sometime ago I had a bad spell of typhoid penumonia, and it came very near finishing me up. I pulled through, howere, but I had never been able to regain any strength, and my appetite was so poor that I couldn't eat enough to keep me alive hardly. My hea dached all the time, adn I would often have dizzy spells. I also suffered from nervousness and never got a good night's sleep. My stomach was in mighty bad condition, too, and everything I ate diragreed with me and I would ahve the worst sort of attacks of idnigestion. I was certainly in bad shape, and I had began to think that I would never find a medicine that would get me started up hill again.

"I had been reading the different statements about Tanlac, and one day I saw where a lady I knew very well, ha dbeen greatly helped by taking this Tanlac, so I made up my m ind right then and there to give it a trial myself. I commenced to get better right away, and it is just simply remarkable the way I have gained in weight and strength. Why, I can go anywhere I want to, now, and I can just feel myself getting stronger every day. My appetite has come back, and I eat three hearty meal sevory day, and what I eat agrees with me all right. I never have indigestion or any kind of stomach trouble any more, and my nerves are so steady that I sleep like a log every night. The headaches haveleft me, too, and so have those dizzy spells, and in fact, I just feel fine all the time. Tanlac has just simply fixed me up all right, and that is why I talk so much about it, and am always recommending it to other people."

"Tanlac is sold in Maryville by Koch Pharmacy, in Conception Junction by A. M. Colly, in Pickering by H. M. Lincoln, in Burlington Junction by Carter Pharmacy, in Barnard by Bear Drug Co., in Elmo by King Drug Co., in Clearmont by Dr. W. H. Wiley, in Ravenwood by C. A. Shunk, in Arkoe by Rufus R. Smith, and in Hopkins by Hopkins Drug Co."

'UNCLE' STAR CARMICHAEL

(Continued from page 1)

caught a greater number of fish than any other person in this community; he has, also, caught the smallest fish that could be found in the clear waters of the 102 river.

In conversation with him a few days ago, the writer evoked the inner feeling of Uncle Star when he said: "There are a few fellows who are envious of my fishing record. If a fellow starts out on the straight and narrow path, there is always someone ready to butt him off. Why, Judge Dawson and I were down to the dam the other day and a funny looking fish made its way up out of the water, and for a moment I did not know whether my name was Star Carmichael or Star somebody else. It had a mouth like a cat fish, with sandy whiskers about the chin, or whatever you call it, four legs like a baby alligator and a tail like an iarship propeller. Sure, it was a funny fish."

When we suggested that it was so funny that people might not believe it, he got worked up a bit and said, "I saw it with my own eyes." Uncle Star said this all happened after wartime prohibition went into effect, and as he belongs to the same church we do and voted for Wilson, we decided to publish the story and if any one wants to suggest a few reservations, they will have to bring in the copy two hours before press time to insure publication.

While Uncle Star has some reputations as a fisherman, he is also known far and wide as a great hunter. He has chased wolves and foxes all over this country, having at one time a pack of hounds that were world beaters. His famous dog "Windsplitter" was always a mystery to those who hunted with him. He was never known to run down or be put out of the race, and when questioned about the mystery of this famous dog Uncle Star said he became great through accident.

One day he was chasing a wolf by sight and was going so fast he struck a rock and just split himself wide open. "I thought so much of that dog, said Uncle, with a tear in his eye, "I ran to him and gathered up both halves and slapped them together and bound them up. When that dog got well, to my surprise, I had put him together one half up side down, and for this reason he could not be run out of the race. He could run on one side until he got tired and then he would just flop over on the other side and finish the race. You are not writing that down, are you?" Uncle Star asked inquisitively. "Yes," we said, "the public might get interested in that dog." "Well, he was no one-cylinder chap, like Heifner, Brown and Robinson owns, but was a two-cylinder dog. When he missed on one side he would 'hit it up' on the other. He was so much of a two-cylinder pup that I named one side 'Windsplitter' 'tother side 'Whipplebat,' but when the tax collector came along, I just gave in one dog, but most fellows who were in the chase thought I had two."

"I've been voting Democratic all my life," he continued, "but like the fellow who stole the sheep, I never meant a bit of harm by it. Guess the good Lord will not hold me to account for that." Uncle Star hesitated a minute and said in a low tone of voice, "I stole a fellow's hound once, but that has been so long ago the statute of limitation has run and I guess Charley McCaffrey and Judge Dawson wont call the grand jury's attention to it. It was conventional in those days and everybody was doing it. You know this wolf hunting and fox chasing is a sport that makes me young again. I was out on a wolf chase recently and it was so exciting I ate up all the grub the neighbors brought in, so they say, and Sheriff Dowden had the audacity to suggest that I pay for my eats, but in 'Indiany' where I came from our motto was 'No bills allowed while the chase was on,' and if the sheriff interfered, he didn't carry a precinct at the next election. Sheriff Dowden ought to be very cautious in presenting bills like that." Uncle Star has a habit of giving his grandchildren and great grandchildren one dollar at birth and one dollar a year at each succeeding birthday. The other day one of his grandchildren ran a double header in on him and gave birth to twins. Uncle Star was up to town early next morning trying to borrow a dollar from some of his friends, until he could collect in a little rent or interest, saying "if that kind of procedure didn't stop he'd have to go some where and ge him a job to keep up expenses."

About this time Ed Williams came along and told Uncle Star he was preparing to try a lawsuit and in which he needed some character witnesses, and suggested to Uncle Star if he would come through like he did on former occasions he would buy a 'Coke,' so they hit the pike for Orear's drug store.

Mr. and Mrs. Otha McDowell, Mr. and Mrs. Robert McGinness and daughters, Beverly and Lois Margaret, Mr. and Mrs. Dewey Mounts and son, Forest LeRoy, spent Sunday evening with Mr. and Mrs. J. T. Mounts and family, southeast of town.

Miss Hilda Denny left Saturday for a two week's visit with relatives in Chicago.
